

The Sun

Entered at the Post Office at Gainesville, Fla., as second-class mail matter.

H. H. McCREARY, Editor and Publisher.
W. W. ASHLEY, Associate Editor.

JESSE E. BURTZ, City Editor.

LOUIS J. BRUMBY, Gen'l Traveling Agent.

F. M. PREWITT, Supt. Composing Rooms.

OFFICE: PORTER BLOCK.

25 W. Main Street, S. TELEPHONE 43-2

The DAILY SUN, published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage free for a year; \$2.50 six months; \$1.25 three months, or 50 cents for five weeks—strictly in advance.

Reading notices in local column 10 cents a line for first insertion, and 5 cents for each additional insertion.
Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

The patients of Jacksonville physicians are not allowed to make ante-mortem statements as to who did it.

Gen. Batjanoff says the Russian army was never stronger. Owing to the extreme heat, possibly. We would suggest a bath.

The Czar is having a hard time in trying to solve the curves of the bomb throwers. The delivery of some of them is decidedly wild.

Several canning factories recently established would indicate more of an effort to save the waste fruit and vegetable products of the State.

If some of the lecturers who are contemplating striking for more pay would also ask for shorter hours, the people would be willing to arbitrate.

Some people claim to have "something up their sleeve." In Gainesville every able-bodied man has his sleeves rolled up and is into business with both hands.

The Portland Exposition might cut down on expenses by putting a stop to flooding newspaper offices with waste basket material in the shape of "news" letters.

The new battleship Kansas will be launched August 12th with the customary bottle of wine. But don't let them work in any of the stuff they sell in Kansas, as it would stop the machinery.

The census enumerators will soon be at work throughout the State, and you must answer every question they ask with neatness and dispatch; but don't give the name of your family physician.

The industrial development of Florida and the whole South for that matter, continues each week, and in this State alone the capital invested in new enterprises is upwards of a million and a quarter dollars.

The situation in Chicago has been quite serious for the past few days. To remain there a person would be liable to prostration from heat, and to take the 18-hour limited for New York was almost sure death.

Trim up your shade trees, cut down the weeds and grass, so the streets and yards will present a better appearance, and you will be surprised at the impression it makes on the stranger who is looking for real estate.

Russia will never have peace so long as Old Nick is at the head of the government. If he were in any other country he would be adjudged insane and confined in an asylum. He should know by this time that his soldiers cannot cope with the Japs.

The truckers and fruit growers of Florida will never attain the success their efforts deserve until the problem of shipping by rail is solved. The crops are abundant, but the trouble is that in many localities it costs all it is worth to get the stuff to market and then take the chances of getting through on time and having the refrigerator cars in proper condition.

THE BETTER PLACE.

Under the heading "Gainesville Gets the University," The Florida Christian Advocate, the organ of the Methodist Church of this State, says:

"The Advocate has studiously refrained from any expression of preference on the question of locating the University; nor have we given voice to any individual sentiment on the subject, preferring to remain absolutely neutral, since it is our wish that the paper should serve the whole church and not prejudice its claims to public favor by the espousal of any cause wherein community, factional or partisan feeling is engendered. Now that the board has made its selection, however, we feel safe in saying that while the loss for the school will be a temporarily heavy blow to Lake City, in view of all interests to be conserved and all ends to be met, we doubt not Gainesville is the better place at which to build a great State university. It is geographically nearer the center of the State and easier of access to that section of the State which is now rapidly developing in wealth and population."

"As heretofore, The Advocate has stood pledged to all of our State institutions, civic and educational. While we condole with our friends of Lake City in their loss we congratulate Gainesville in her splendid success, and pledge to the school and the Board of Control all the moral support in our power in their laudable effort in building up our educational interests."

EMINENTLY SATISFACTORY.

The Board of Control has selected Gainesville as the seat of the University of Florida, and its action in so doing, we believe, will be eminently satisfactory to a large majority of the citizens of the State. Gainesville is indeed a pretty town; it is, too, progressive, with a cultured and intelligent citizenship, and no saloons in the county. It is centrally located, and the University will always receive the hearty and enthusiastic support of the people of Gainesville and Alachua county. The board has selected Dr. Andrew Sledd, for the past year president of the Lake City college, as president, and this is said to be a wise selection.—Volusia County Record.

NO MEAN THINGS.

Harry McCreary's Gainesville Sun says that four lines of "doggerel" published last week from The Star of that city does not represent the opinions of the people of that town. The Sun says "Gainesville has only the most kindly feelings for Lake City and her good people." No one here thinks "Mac" would say mean things.—Lake City Index.

The Sun endeavored to refrain from any meanness during the whole campaign, only trying to hold up our city and its advantages.

OPINIONS DIFFER.

Gainesville's securing the University is another proof of the power of the press.—Lake Butler Star.

Not at all, Bro. Star. As John Caldwell would say, it simply proves that some men are liars.—Lake City Index.

Not at all, Bro. Appleyard. It simply proves that Gainesville is really the most suitable place for the University and that the Board of Control was wise enough to see it and honest enough to vote accordingly.—Inverness Chronicle.

The Cocoa and Rockledge News is ten years old and is one of the best edited and most newsy weeklies in the State, if it is not so large. The News proves the old saying that "best goods are done up in small parcels." At all events, it is all its name implies.

Catarrh Cannot be Cured

With local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials free. F. J. CROWLEY & Co., Prop., Toledo, Ohio.

Sold by druggists, price 75c. Take Hall's Family Pills for constipation.

The merchants of Gainesville are advancing along business lines and keeping up with the times. By making clearing sales they draw many people to the city to take advantage of the reduced prices they offer on their large stocks, which must be returned. And they are aware of the fact that the plain truth in their advertising is what brings buyers. The truth is what gives the buyer confidence in the merchant, and if a customer comes once and is fairly treated, he is sure to come again. When you want to let the people know you have bargains for them, The Twice-a-Week Sun is the medium through which to reach them. A plain statement of facts is all that is needed—no flowery words.

A Macon lad ten years old was bitten by a cat and developed a very aggravated case of rabies.

Poor Instruction.

"Did Jones make much money giving memory lessons?" asked Mr. Dobbs, and his friend explained, says London Modern Society, the reason why Jones' business was not a success.

"No," was the reply. "Most of his students forgot to pay him."

Honest About It.

"What is the difference between history and fiction?"

"Well," answered the unbelieving person, "one great difference is that fiction frankly owns up to being largely untrue."—Washington Star.

Revised Version.

"It's curious that women are never great poets or great musicians," said Mr. Meeker.

"What did you say?" asked his wife belligerently.

"I was merely remarking that women are too sensible to squander their energies on poetry and music to the extent that some men do."

His Terrible Accident.

Admiring Young Lighter—And how did you lose your leg? Old Salt—Well, young man, one night in the dog watch, while I was carryin' the baby jib, I stepped on a starboard tack, and blood plain ensued.—Pittsburg Dispatch.

Permanent.

Jokoe—Charlie told me she made a regular fool of him two years ago. Jinks—Well, here is thorough workmanship, for the job seems to be permanent.

A FACT PROVEN.

Should Contain Even the Most Skeptical of Its Truth.

If there is the slightest doubt in the minds of any that Dandruff germs do not exist, their belief is compelled by the fact that a rabbit inoculated with the germs became bald in six weeks' time.

It must be apparent to any person therefore that the only prevention of baldness is the destruction of the germ—which act is successfully accomplished in one hundred per cent. of cases by the application of Newbro's Herpicide. Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newbro's Herpicide.

Accept no substitute. "Destroy the cause you remove the effect."

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

J. N. Bodiford & Co., Special Agents
